

NUDURA Project Profile

West Village - Hamilton, Ontario

FAST FACTS

- Project Manager: Dundurn Edge Development Inc
- LEED[®] Consultant: Enermodal
- 205,000 sq ft including 10,000 sq. ft. of commercial space
- 106 condos including 16 grad student/staff condos.
- West Village utilized a combination of NUDURA[®] 6", 8" Forms for exterior walls and NUDURA[®] 10" and 12" for pilasters.
- 449 student rooms.
- West Village was built using state-of-the art materials and incorporates innovative technologies to reduce energy consumption by 50% and water consumption by 75% over conventional buildings. A demonstration program with the city of Hamilton, will make this the first multi-residential building in Hamilton to have separate pickup for organic waste, recycling and garbage resulting in 86% reduction in landfill waste.
- West Village obtained a LEED Platinum Rating.
