## SPRAY FOAM GUN

### PRODUCT INFORMATION SHEET

#### Product Code

NUS-AGUNM-00

#### Product Description

Nudura's Spray Foam Gun features a durable metal body with metal trigger and is designed to work with Nudura Low Expansion Spray Foam, as well as Nudura's Foam Gun Cleaner. The applicator gun also features a convenient flow control knob to adjust the flow of the low expansion spray foam through the barrel of the gun and can be fully closed for storage. Each applicator gun comes with extension tips to extend the reach of the applicator gun in tight spaces.

#### Basic Uses

Nudura's Spray Foam Gun is to be used with Nudura's Low Expansion Spray Foam and Foam Gun Cleaner.

#### Application

To install a can of Nudura's Low Expansion Spray Foam to the Spray Foam Gun, begin by turning the flow control knob to the fully closed position. Align the threads of the can with the basket of the Spray Foam Gun and thread the can onto the gun firmly, but do not overtighten. Once the can is installed on the gun, turn the control knob to the desired setting and pull the trigger to dispense the spray foam.

To change an empty can, turn the flow control knob to the closed position and unthread the can. A new can should be loaded immediately or for storage the gun should be thoroughly cleaned with Nudura's Spray Foam Gun Cleaner.

The extension tips can be easily pushed onto the end of the applicator gun to increase the reach of the foam gun in tight spaces.
