

TREMCO UNIVERSITY

ON THE ROAD | IN PERSON | ONLINE

AIA-APPROVED CONTINUING EDUCATION

At Tremco, your learning opportunities are endless. Whether you're an architect, specifier, distributor, contractor – or someone just wanting to expand your construction materials knowledge – we offer training in a range of topics and in formats to meet your goals, learning style, budget and schedule:

ON THE ROAD

Our "On the Road" options bring the training directly to you through Tremco University On The Road. Our experienced trainers showcase products, answer contractor questions and give hands-on installation instruction. Learn more at: <https://www.tremcocpg.com/our-values/education-and-training>

IN PERSON

Visit us for in-person trainings including Nudura ICF installer training, qualified applicator/installer programs, basic product education and AIA-approved lunch-and-learn courses. Learn more at: <https://www.tremcocpg.com/our-values/education-and-training>

ONLINE

The Tremco University online portal makes it easy to register and attend live and on-demand webinars including AIA-approved courses, product trainings and more: <https://tremcouniversity.com>

A FULL LIBRARY OF AIA-ACCREDITED COURSES

Tremco University offers a library of Continuing Education Units (CEUs) approved by the American Institute of Architects (AIA) and International Institute of Building Enclosure Consultants (IIBEC). Programs discuss technical advancements and construction practices that can help achieve greater building performance, sustainability and energy requirements.

Topics cover product/industry histories; technology overviews, trends & changes; ways to meet codes, standards and approvals; myths & challenges; performance; testing; risk mitigation and much more.

AIA TOPIC CATEGORIES INCLUDE:

- Air Barriers
- Building Enclosure
- Coatings
- Deep Energy Retrofit
- Exterior Insulation and Finish Systems (EIFS)
- Fire-Stopping
- Glazing
- Insulated Concrete Forms (ICFs)
- Panels / Prefabrication
- Roofing
- Sealants
- Waterproofing
