

POWER of ONE

One Building Envelope. One Warranty.
One Powerful System Delivering
Unmatched Protection for Your Building.

One Stop for Your Next Project's Building Envelope

Imagine the convenience of one source for information and assistance on building envelope components. One source for all the project-specific, custom details with solutions that are tested, proven and warranted together. A Tremco Construction Products Group building envelope is designed and tested to work as one continuous system and is warranted together in a single document.

Reduce Warranties to One, Reduce Stress

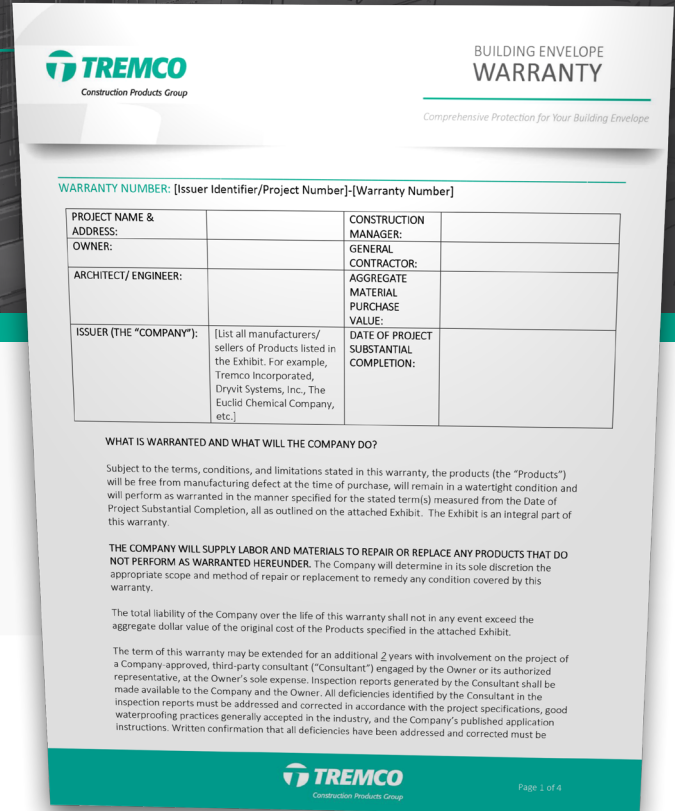

One building envelope warranty for the building owner means less worry for your firm. When you specify building envelope systems from Tremco CPG companies, you're choosing the highest performing solutions in the industry, designed to work as a continuous system, including all of the various interfaces.

Forget "by others," Get Interfaces "by Tremco"

When it comes to the areas most likely to leak, your client and your firm are covered. That means all those difficult to detail transitions between systems, penetrations, window openings and more. One warranty from Tremco CPG companies means that if any of our systems proves defective, we'll pay for the labor and material to fix it.

Design Professionals

"They were able to give us a comprehensive warranty — covering the entire building — from a single source. That was impossible from anybody else. A great selling point for the owners."

A COMPREHENSIVE SYSTEM. A SINGLE WARRANTY.

A Tremco CPG building envelope is a comprehensive system, and its components are warranted together in a single warranty document.

We're so confident in the performance of our solutions that if any one or more elements of your Tremco CPG building envelope proves defective, we'll pay for the labor* and material to fix it.

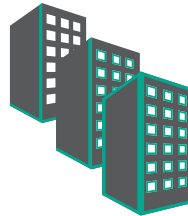

Benefits for Design Professionals

WE'LL HANDLE THE SCIENCE — SO YOU CAN FOCUS ON THE ART
Working with clients to develop a beautiful and functional space that meets project needs is challenging enough. With Tremco CPG, you can leave many details of creating an envelope that provides protection against air and water leakage and ensures thermal performance to us. *Literally.* We can provide you with the project specific details, mock-up assistance, testing and advice needed to help make sure every component functions as intended.

NO FINGER-POINTING AMONG MANUFACTURERS
From the cladding, to the CI, to the air barrier, waterproofing, sealants, coatings and even window flashings and gaskets — if any product of ours is defective, the material, labor* and repair is on us.

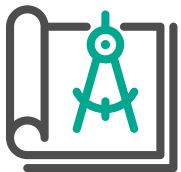

OPTIONS FOR ANY BUDGET
With our *Good / Better / Best* building envelope systems and corresponding warranties, whatever your project goals, we have proven, compatible solutions that will protect the building effectively.

SAFEGUARD LONG-TERM INVESTMENTS
Systems that offer extended warranty terms protect structures for years to come. Maintenance and service plans can also find and fix issues before they cause real problems.

ADDED VALUE IF THEY SELL
A building is simply worth more with a transferrable** Tremco CPG Building Envelope warranty. Owners are not only selling a warranted structure, but one with reduced life-cycle costs, lower energy consumption, and more.

LIGHTEN YOUR LOAD
Call on our experts for access to custom details and technical guidance to help ensure your design will perform as intended. Our tested, proven systems meet or exceed building code requirements.

MORE MONEY LEFT IN YOUR CLIENTS' POCKETS
With a warranty from the Tremco CPG companies, the more you single-source, the greater the dollar value of coverage available should a defect arise.

To learn how you can get the best envelope and warranty for your project, contact your local Tremco CPG company sales representative. A technical sales rep from any of the Tremco CPG companies can assist.

Tremco Construction Products Group companies make no warranty, expressed or implied, as to the architectural design, engineering or applicator workmanship of/on projects utilizing products or systems from any company or companies in the group.

*Coverage for labor costs applies to US projects only.

** Tremco CPG building envelope warranties are transferrable pending express written consent of the company.
