

SEACOAST GERIATRICS II

Dover, New Hampshire

Project Statistics

Type:	Medical
Size:	30,000 sq. ft.

Construction Team

General Contractor:	J & E Wall Systems LLC
----------------------------	------------------------

- 100% of the main structure (excluding the exterior connector) is built with Nudura Insulated Concrete Forms (ICF).
- Additional Nudura forms were used for interior firewalls in each wing of the building.
- The exterior finish is a combination of vinyl siding, vinyl shakes, and cultured stone with a wood truss roof structure.
- Solar panels were installed to provide domestic hot water, power occupancy sensors, and power attic exhaust ventilators.
- The contractor was impressed with the minimal heating costs during a winter build and the substantial reduction in mechanical systems needed to complete the project.

Tremco Construction Products Group (CPG) brings together Tremco CPG Inc. and its Dryvit and Nudura brands; Willseal; Prebuck LLC; Tremco Barrier Solutions, Inc.; Weatherproofing Technologies, Inc. and its Pure Air Control Services and Canam Building Envelope Specialists offerings; and Weatherproofing Technologies Canada, Inc.
